

CERTIFICATION OF COMPLIANCE

for

SUPREMA ID, INC.

***RealScan S60 (RealScan S60M OEM) tenprint and Identification Flats livescan device at 500 ppi without membrane.
NOTE: Not appropriate for use in presence of black markings or in direct sunlight.***

The FBI certifies that the equipment described above is in compliance with the following FBI CJIS Division's Next Generation Identification System Image Quality Specifications (IQS):

EBTS Appendix F Mobile ID FAP 60 using
Appendix F Specifications

This certification process does not constitute an endorsement, but only attests that the product meets FBI standards. Continued acceptance of the images created by an installed system, for retention in the FBI Master Fingerprint files, is contingent on the ability of the product to meet the IQS over time. As equipment can degrade, the FBI recommends that your company assist customers in the establishment of quality assurance programs and appropriate maintenance schedules for your products.

*This certification process is not intended to endorse one entity or implementation over another, but merely to certify that the implementation meets FBI standards.
The authenticity of this certificate can be confirmed by checking the online registry at <<https://www.fbibiospecs.cjis.gov/>>.*
